## DEAN'S INSTRUCTION NO. 7/2020

### Awarding prizes to graduate students in the academic year 2019/20

I ask the Heads of the Institutes of the Faculty of Mechanical Engineering at the Brno University of Technology to send proposals for the following awards **no later than by July 31, 2020 to the Head of the Study Department:**

- **Rector's Award** - is awarded in accordance with the (Rector's) Directive No. 1/2019 to outstanding graduates of master's studies (**Weighted Study Average (WSA) is lower than 1.04 and State Final Examination (SFE) evaluation is "A"**). The part of the nomination for the Rector's Award is the justification of the proposal from the Head of the Institute. All proposals will be assessed and evaluated by the Dean of the Faculty. In case, the nominated student is not awarded the Rector's Award, his/her nomination will be transferred to the Dean's Award.
- **Dean's Award** for the excellent study results (**WSA for bachelor's studies is up to 1.15, for master's studies up to 1.10 and SFE evaluation is "A"**). If the student excels in a way other than study, this fact must be stated in the justification and then the above limits for WSA do not have to be met. The part of the nomination for the Dean's Award is the justification of the proposal from the Head of the Institute.
- **Industrial Enterprise Award 2020 (IEA 2020)** for an excellent diploma or bachelor's thesis (**does not depend on WSA**). The SFE committees will propose to the Head of the Institute excellent final theses with a justification of their exceptionality (it is not appropriate to propose final theses with a postponement of publication). The Head of the Institute will choose **the best diploma and bachelor's theses** from the proposed final theses so that **the limits given in the table below are not exceeded**. The part of the nomination for the award is the justification of the proposal from the Head of the Institute.

Students nominated for IEA 2020 will be contacted by e-mail at BUT on **August 3, 2020**, they will receive login details on Google Disk and guidelines for creating a poster of 8 pages of the presentation of their final thesis according to the template attached to this Instruction. Furthermore, students will receive guidelines for creating a video of the final thesis. Students will save the created poster and video on Google Disk in the form together with the final thesis and other data no later than by **August 16, 2020**.

Institute	Maximum number of nominations for IEA 2020	
	Bachelor degree	Master degree
