

Logging into the Eduroam WI-FI network in Windows 10

1. Click on the icon for network connections and the options to connect will appear above it.

2. Select the Eduroam network and click to **Connect** (Připojit).

3. Fill in BUTmail according to the image. Password in the intraportal in the BUTpin item.

The image shows two overlapping windows. On the left is a Windows 10 network settings window. It displays several network profiles: 'Sít' Připojeno', 'vutbrno Otevřené', 'SPC Zabezpečeno', and 'eduroam Zabezpečeno'. The 'eduroam' profile is selected, and a login form is visible with the email 'uzivatel@vut.cz' and a field for 'VUTpin'. Below the form are 'OK' and 'Storno' buttons. At the bottom, there are icons for 'Wi-Fi', 'Režim v letadle', and 'Mobilní hotspot'.

On the right is the VUT intraportal page. The header includes the VUT logo and navigation tabs for 'PORTAL', 'STUDIS', 'TEACHER', 'ELEARNING', and 'APOLLO'. The current page is 'Home > BUT pin'. The main content area is titled 'BUT PIN' and contains the following text: 'Your BUT PIN is "[redacted]" and its validity expires **416 days** on Thu 9 Oct 2025 0:00. BUT PIN serves as access code to some BUT applications and networks. Currently, BUT PIN is used in the following applications:'. A list of applications follows: 'BUT WIFI network', 'EDUROAM WIFI network', 'Wifi network eduroam application', and 'VPN network'. Below the list, it says 'To generate a new BUT PIN press the following button' and features a 'Generate new BUT PIN' button. The footer contains the CVIS logo, the text 'If you have any questions or problems with the intraportal system, please contact...', and the copyright notice '© 2004–2024'.

4. Confirm OK and click Connect (Připojit) for the next question.

5. Subsequently, the network is set and the connection is active.
